

New Delhi, 15 March 2007

[Vinode Software and Services](#) continue to add credibility on a eulogistic note. They have been listed in [CSS mania](#). CSS mania the most updated CSS showcase in the world, using a mixed perl/php/mysql script. A CSS Showcase is a website that showcases web sites developed using XHTML & CSS (Tableless) employing the best practices in web development. It further acts as a useful teaching tool for professionals and companies with web presence, interested in the latest in web site building and learning about the best developers specializing in web standards.

“Being listed on the CSS mania provides us with a platform to showcase our expertise in web development arena. It is yet another milestone in our quest for perfection, and it is gratifying to see that our relentless commitment to superior quality has been acknowledged by an authority resource“quotes, Parvesh Aggarwal, Director of Vinove.

It was also professed that the company has so far successfully completed more than 150 [design and development](#) projects. Most of these [clients](#) have either committed Vinove with more projects, or have acted as a positive [reference](#), vouching for its detailed processes and quality parameters.

“Quality services and our prompt Customer Service are the hallmark of our services. Our perennial desire to better our past accomplishment has been instrumental in furthering our client base” further added Parvesh.

In a domain that is quintessentially overcrowded with web development companies, Vinove stands out as a veritable source for sterling design and development services. Their services portfolio encompasses developing dynamic and static WebPages, using PHP 4/5, ASP, ASP.NET, Coldfusion and Flash amongst an array of other technologies.
